

On this layered book the correct Latin name is used for each Kingdom.

If you choose to write a definition of the members of each Kingdom, there is enough room. Too, you can draw some pictures to illustrate a member of each Kingdom.

The layered book has been designed so that the pages for the Kingdoms, Plantae and Animalia have the most room (i.e. they are placed at the bottom) to allow you to draw or illustrate some of your favorite rain forest plants and animals.
