

Cut out layered top tab book and place title page on front.

Use this minibook with months already given or have your child write the months and decorate his own tabs.

On each month have your child write how he likes to spend each month.

If you child is too young to write, have him draw a picture about each month.

Too, if he does not want to draw, then there is some clip art placed on the last page. Just cut/ glue on each page. Mix/ match or add your own.
